Dear Mr. O'Brien:

Submitted herewith is the Cost Allocation Plan for the State of Montana for the fiscal year ending June 30, 1978, in accordance with the provisions of GSA Federal Management Circular FMC 74-4.

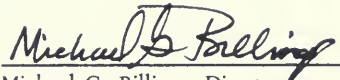

Because of the high cost of generating the computer run on accounting transactions, the 1973 actual transaction count has been used to allocate the cost of the Accounting and Management Systems Division. The relative stability of agency operations during the intervening years should make any errors negligible.

Respectfully submitted,

Michael G. Billings
Director

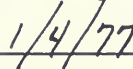

CERTIFICATION BY STATE BUDGET OFFICER OR OTHER RESPONSIBLE
STATE OFFICIAL—STATEWIDE COST ALLOCATION PLAN

I hereby certify that the information contained in the Montana Statewide Cost Allocation Plan for the fiscal year ending June 30, 1978, is correct and that the State of Montana has authorized me, as its representative, to file this plan. I further certify that a consistent approach has been followed in treating a given type of cost as direct or indirect, and that in no case have costs charged as direct to federal programs been included in the indirect costs reflected in the plan which I have submitted.

Michael G. Billings, Director
Office of Budget and Program Planning

DEPARTMENT OF ADMINISTRATION

ACCOUNTING DIVISION

COST ALLOCATION

Actual Fiscal Year 1976

The Accounting Division of the Department of Administration is responsible for the daily processing of all Statewide Budgeting and Accounting System documents submitted by agencies and subsequent distribution of the month-end financial reports derived from these documents. The major goal of this Division is to provide timely processing of daily documents and complete and accurate financial reports to assist in carrying out the operation of state government.

Costs are allocated on the basis of accounting transactions per agency.

	Total Cost	Not Allowable	Allowable
Operational	\$409,822	\$ 0	\$409,822
Equipment	4,383	4,383	0
Central Administration ¹	7,063	0	7,063
Total	<u>\$421,268</u>	<u>\$ 4,383</u>	<u>\$416,885</u>

¹ The Central Administration Program provides supervision and coordination of the various activities of the Department of Administration. The \$130,806 operating cost of this program has been prorated to the Department's programs based on the cost of operations of each program. Approximately 47% of the Department's programs are included in the indirect cost pool.

The General Services Division encompasses those duties assigned the Department of Administration in relation to the maintenance and custodial care of the Capitol Complex buildings and grounds, including the supervision of mailing facilities and allocation of office space. For the purpose of cost allocation, the two percent building use allowance is included in the total cost of the General Services Division.

The Division's cost is allocated on the basis of square feet of usable office space.

Fire and Casualty Insurance Premiums: This is the cost to the state for insurance protection from fire and casualties.

The Insurance Section of the Department of Administration publishes a *Schedule of State Properties* every three years which lists values of all buildings and their contents. The July 1, 1974 report was used to calculate a value for each agency with the exception of agencies located in the Capitol Complex which are not broken down individually. Because of this, it was necessary to assign each of these agencies with a share of the Capitol Complex amount. This was done on the basis of square feet of usable office space.

The value of the premiums was allocated on the basis of coverage per thousand dollars of assessed value.

The primary objective of the Management and Control Program of the State Auditor is to issue and mail all state warrants, and supervise and control the Central Payroll System. Since agencies, other than General Fund agencies, pay a direct charge for Central Payroll, these costs have been deleted from the agency allocations.

Costs are allocated on the basis of the number of warrants issued for each agency less payroll service fees.

The Governor's Office of Budget and Program Planning assists in the preparation and administration of the state budget. The agency also assists in the development and evaluation of alternative program plans for the provision of state government services.

Allowable costs were determined by the percentage of appropriated agency operating expenses from federal sources (24%) and the percentage of budget office time spent processing budget addition requests due to federal funding (20%).

Costs are allocated on the basis of agency appropriated budgets.

¹ Non-allowable funds consist of federal funds expended, general cost to maintain the A-95 Clearinghouse function, General Fund support for the Human Services and Mental Health/Mental Retardation Coordinator projects, and 56% of the remaining operational expenses.

² Includes \$320 for clearinghouse function.

³ Non-allowable funds consist of pro-rated amounts for Human Services, Mental Health/Mental Retardation Coordinator and the A-95 Clearinghouse. Also included as non-allowable is 56% of the remaining pro-rated allocation to Budget and Program Planning.

The State Clearinghouse of the Office of Budget and Program Planning is responsible for fulfilling the requirements of Office of Management and Budget Circular A-95 and the state's Federal Assistance Management Act, Sections 79-2701 through 79-2709, R.C.M. 1947. The program performs staff analysis of A-95 project notifications originated by state agencies and local public and non-profit agencies, and monitors a review and comment process.

Allowable costs consist of review activities directly related to state agency applicants.

Cost are allocated on the basis of the number of project applications originating in each agency.

The Commissioner of Higher Education of the Montana University System acts as secretary to the University Board of Regents on matters pertaining to higher education and is a coordinating office for the Montana University System.

Allowable costs consist of those items directly attributable to the administration of Montana's six university units. Approximately one quarter of the commissioners salary and travel have attributed to general support of the Board of Regents and are therefore a general cost of government.

Costs are allocated on the basis of the operating budgets of each of the units as a percentage of the total.

The State Treasurer is charged with the responsibility for the custody and accountability of all monies and securities belonging to or held in trust by the State of Montana. In general terms, the Treasurer provides agencies with banking services at the lowest possible cost. The primary service function, however, is the payment of agencies' warrants.

To determine allowable costs, an analysis was made of the various duties of each employee and the relationship these duties had to agency service. It was determined that 4.90 of a 8.86 employee work force were allowable costs.

Costs are allocated on the basis of the number of warrants issued for each agency.

APPENDIX

STATE CENTRALIZED SERVICES BILLED DIRECTLY TO AGENCIES**DEPARTMENT OF ADMINISTRATION—Data Processing**

The Data Processing Division of the Department of Administration satisfies the data processing needs of most state agencies on a centralized basis.

A cost accounting system has been developed over the past several years to provide funding for the program by charging for services performed. There are four cost centers used for determining the amount chargeable to agencies for services: (1) Personal Services: Services performed by an employee in which no equipment is required, e.g. programming, systems analysis, clerical, etc. Rates are determined from direct salary costs and indirect overhead costs. (2) Processing Services: Services performed by an employee on which data processing equipment is used, e.g. keypunching, computer processing, etc. Rates are determined from direct salary costs, indirect overhead costs, and supply costs. (3) Supplies: Data processing cards, continuous forms, computer ribbons, magnetic tape, etc., which are used directly to produce data for a user are charged to the user on the basis of direct cost plus indirect overhead costs. (4) Equipment: Charged directly to the user when it is installed for their use only. Rates are determined from direct equipment costs plus indirect overhead costs.

DEPARTMENT OF ADMINISTRATION—Duplicating/Printing

The Department of Administration provides duplicating and printing services to state agencies and bills them directly on a cost basis.

DEPARTMENT OF ADMINISTRATION—Interagency Mail Service

The Department of Administration provides a mail service to state agencies. The U.S. Postal Service pays the Department for handling incoming and outgoing postage mail, and the Department bills agencies for delivery of "deadhead" mail between agencies on the basis of time/motion studies based on volume of mail, handling time, and miles traveled.
